High strength
materials

For small to medium pools

Perfect for all small to medium sized pools, the ZTP Media Filter is the perfect choice for these applications.

Durable construction

Built and designed to a specific shape and performance means the ZTP Media Filter is perfect for all pools up to 60,000 litres while turning over the pool water twice in an 8 hour daily filtration cycle.

High quality components

Simple and easy installation made with high quality components such as oil filled pressure gauge, corrosion free valve connections and fast draining of water and filter media for maintenance means the ZTP filter is not only economical to purchase but is economical and easy to maintain and service for the life of the product.

- Injection moulded high strength tank
- High strength materials for long life
- Suitable for inground and above ground pools
